**A SUSTAINABLE  
WAY OF LIVING  
FOR EVERYONE**

**THAT'S WHAT WE ALL  
WANT, RIGHT?**

**Around 139,000 tonnes\* of clothes, go to landfill per country in Europe every year and less than 0,8% of all materials in clothes are recycled\*\*.**

# 139.000 TONNES ANNUALLY

**That's just an average number in Europe in textile waste per year. Now take in mind that 1 pair of jeans costs about 34kg\*\*\* of CO2 to produce...**

# .WITH OUTSTANDING CRAFTSMANSHIP

In our products, we combine new technologies with life-lasting craftsmanship. Our aim is to create products that last longer than a lifetime. Products with an emotional story, products that you simply can't say goodbye too because of all the effort and skills you can feel in the product. Next generation heritage.

The relationship between a person and an object, the resonance of a piece, the pleasure that one gets from using it... that's what matters to us.
