

ASTON

arper

Aston

Strong and decisive, Aston sits at the head of the table. Defying the conventions of the typical boardroom chair or executive lounge, its linear profile and aerodynamic lines are engineered for comfort and performance. With mechanics sheathed in its sleek form, Aston is ergonomic yet light, making it perfect for both home and work. Designed especially for work environments and applications, Aston is available in three different back heights Conference, Office and Direction covered in leather or fabric in a wide range of colours. All models are available in 4 star base with swivel mechanism, automatic seat repositioning mechanism and tilt adjustment or 5 star base with casters and height adjustment mechanism. The Conference model is available in 4 leg base or cantilever chrome base. The Office and Direction models are offered with a synchronized adjustment .

The Aston Lounge features a 4 star base with swivel mechanism, automatic seat repositioning mechanism. Designed for especially for waiting and lounge areas, the Aston Lounge has an upholstered footrest and side table.

Designer

Jean-Marie Massaud

A multi-disciplinary practice devoted to brand, architecture, industrial and furniture design, Studio Massaud was founded in 1996 by Jean-Marie Massaud and Daniel Pouzet. Massaud's aesthetic is characterized by the quest for synthesis, lightness, and transparency and the reduction of the superfluous. The studio is an incubator for visual ideas that explore the delicate balance between the physical environment and the economic realities of contemporary experience. Studio Massaud is the author of many of our collections such as Aston, Sean, Fred and Ginger.

Awards

— Interior Innovation Award 2010, Germany (Aston Syncro)

Applications
