DESK 2 is a power strip that can be populated with various communication modules. It has been designed for flexible use in the office, meeting rooms, home offices or desk sharing environments.

The power strip is made from aluminium and is available in various colours. The data and media connections are screwed onto the standardised module windows and can be easily changed over.

The materials used are of high quality and durable.

DESK 2 won the red dot design award 2011, the IF Product Design Award 2012 and was nominated for the German Design Award 2012.

**The  
advantages  
at a glance**

- Design solution for modern workstations
- User-focused 45° orientation
- Covered wiring to the edge of a desk or table
- Custom versions adapt to future requirements
- Red Dot Design Award winner 2011
- IF Award winner 2012
- Nominated for the German Design Award 2012

Particular attention has been paid to the design of the DESK 2. In terms of technology, DESK 2 has a modular structure, just like its predecessor DESK 1. Like all other Bachmann desk connection panels with media and data modules, DESK 2 is adapted to individual requirements and future purposes using Bachmann custom modules.
