

HANNAH

design: busk+hertzog

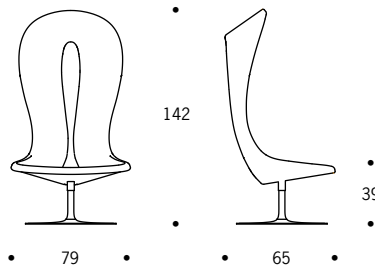

Hannah is a unique and iconic lounge chair on swivel base. The organically shaped seat shell is high and shawls gently around the user. The characteristic opening in the back makes the design elegant, sculptural and dynamic at the same time. The upholstery of the shell is comfortable but implemented in a minimal dimension. It provides a unique organic elegancy that is supported by its base, which is gently lifted from the floor to the shell, resulting in an almost floating sculptural expression.
