

FOLDED SHELVES

FURNITURE / LIGHTING / ACCESSORIES

PRODUCT FACT SHEET

JOHAN VAN HENGEL ON THE DESIGN "Inspired by the shadow-play of layers, FOLDED is based on a seemingly simple bending technique of a single sheet of metal to create pockets which hold and separate your items. Featuring a subtle bolt and hooks for hanging objects, it is a versatile wall mount that can be used in both a practical and a decorative manner - suitable for organizing anything from mail to books, perfumes or spices, or just displaying your favorite belongings, in the hallway, bathroom, bedroom or kitchen."

PROCESS Laser cut from metal sheets, these shelves go through a folding process. They are then lacquered with an acrylic powder coating.
